**NEW YORK POWER AUTHORITY
NOTICE OF INTENT TO PARTICIPATE
AND SEEK COST RECOVERY IN CASE 12-T-0502**

Pursuant to the New York State Public Service Commission's ("Commission") May 29, 2013 Proposed Rules for the Energy Highway Transmission Initiative, the New York Power Authority ("NYPA") hereby notifies the Commission of NYPA's intent to participate and seek cost recovery in Case 12-T-0502 for NYPA's portion of the Marcy South Series Compensation and Fraser to Coopers Corners Reconductoring ("MSSC") project. NYPA's portion of the MSSC will require Commission approval to amend an existing Article VII Certificate (PSC Case 70126). Pursuant to Public Service Law § 123(2), projects that involve an Article VII amendment that do not have a material increase in environmental impact or result in a substantial change to the facility location are not subject to Commission hearings and thus could be treated as a "Non-Article VII project" for scoping and procedural purposes per the PSC's September 19, 2013 Order.

Dated: September 26, 2013

Respectfully submitted,

New York Power Authority
