- (1) All expansion-based RNY Power allocations are recommended to be "up to" the amount indicated pending the applicant's compliance with contractual commitments, including commitments relating to job creation, capital investment spending and power utilization.
- (2) These companies are also being recommended for retention-based RNY Power allocations associated with separate and distinct contractual commitments relating to such matters as job retention, capital investment spending and power utilization associated with an existing business.
- (3) The number of new jobs committed will be above a base employment level specified in the power sale contract with the applicant.
- (4) This applicant was previously approved for a retention-based RNY Power allocation. The base employment refers to this applicant's retained jobs which are already associated with an existing power allocation.

 Informational Item - Applicant/Application Not Recommended for RNY Power Allocation

Exhibit "E"
 March 29, 2016

Line	Company	City	County	Economic Development Region	IOU	Description	Reason
1	Lunar Module Park LLC	Bethpage	Nassau	Long Island	LIPA	Studio rentals for film production	1) The applicant's power demand fluctuates significantly due to standard operating conditions and therefore an RNY allocation based on such fluctuating power demand would be unlikely to have a meaningful impact on the applicant's operating costs particularly during times of reduced demand. 2) The applicant itself can only commit to a small number of direct jobs due to the nature of its business. Other persons working at the facility would be employed by production companies renting out studio space and would not be subject to long term commitments by the applicant.
2	CCNA Realty LLC	Yonkers	Westchester	Mid-Hudson	CONED	Provides office space to tenants	Specific entities within the facility that would use and receive the benefit of an RNY allocation would not have a utility account or utility grade demand meter, and therefore it would not be possible for the utility to collect demand and usage data from specific users of RNY Power.
3	Seneca Larkin 701, LLC	Buffalo	Erie	Western New York	NGRID	Provides office space to tenants	Specific entities within the facility that would use and receive the benefit of an RNY allocation would not have a utility account or utility grade demand meter, and therefore it would not be possible for the utility to collect demand and usage data from specific users of RNY Power.
4	Seward House Museum	Auburn	Cayuga	Central New York	NYSEG	Historical museum and landmark	The applicant's power demand is insufficient to support an award of RNY Power and to meet other program requirements, and a RNY Power allocation based on such power demand is unlikely to have a meaningful impact on the applicant's operating costs.
