¹ The "Fund", known as the "Western New York Economic Development Fund", is created and administered by the New York Power Authority ("NYPA"). It is funded with the aggregate excess of revenues ("Net Earnings") received by NYPA from the sale of Expansion Power ("EP") and Replacement Power ("RP") produced at NYPA's Niagara Power Project that is sold in the wholesale energy market over what revenues would have been received had such Power been sold on a firm basis to an eligible EP or RP customer.

² As defined by the Western New York Power Proceeds Allocation Act, a minimum of 15% of Fund Benefits shall be dedicated to "energy-related projects, programs and services". In accordance with EDL § 189-a(6), "energy-related projects, programs and services" means: (1) energy efficiency projects and services; (2) clean energy technology projects and services; (3) high performance and sustainable building programs and services; and (4) the construction, installation and/or operation of facilities or equipment done in connection with any such projects, programs or services.

³ Funds awarded to applicants to the Fund who are recommended for an award by the WNYPPAB and approved by the NYPA Trustees are known as "Fund Benefits." Disbursement of Fund Benefits is subject to satisfaction of certain terms and conditions.

⁴ Total Fund Benefits Available to Be Awarded is calculated as Total Funds minus the sum of Total Fund Benefits Awarded and Total Administrative Expenses Withdrawn.

⁵ The NYPA Trustees may allocate EP or RP to eligible companies. Such customers may use the entire allocation, or such customers may "take down" only a portion of the allocation based on their needs at the time. EP and RP that is unallocated, or that is allocated but not taken down, is eligible to be used for WNYEDF "Net Earnings".

⁶ Unutilized EP and RP consists of an estimate of both unallocated hydropower and allocated hydropower that has not been taken down by customers.
