

June 26, 2013

**MEMORANDUM TO THE WESTERN NEW YORK POWER PROCEEDS
ALLOCATION BOARD**

**FROM THE WESTERN NEW YORK REGIONAL DIRECTOR, EMPIRE STATE
DEVELOPMENT CORPORATION**

**SUBJECT: Awards of Fund Benefits from the Western New York Economic
Development Fund**

SUMMARY

The Western New York Power Proceeds Allocation Board (“Allocation Board” or “Board”) is requested to recommend to the Board of Trustees of the Power Authority of the State of New York (“NYPA” or “Authority”) that awards of Fund Benefits be made to the two applicants identified in Exhibit “A-1” and Exhibit “A-2” in the amounts indicated in each such Exhibit.

The Board is also requested to find and determine that: (1) the applications listed in Exhibit “B” will not receive a recommendation for an award of Fund Benefits based upon the application of the relevant program criteria to such applications; and (2) the applications listed on Exhibit “C” propose projects that are not “eligible projects” for Fund Benefits for the reasons described below.

The Board is also requested to defer the applications listed in Exhibit “D” for consideration at a later time.

For the Board’s information, Exhibit “E” identifies those applications for Fund Benefits that have been withdrawn or that are incomplete. No action by the Board is required on these applications at this time.

BACKGROUND

1. **Western New York Power Proceeds Allocation Act**

On March 30, 2012, Governor Cuomo signed into law the Western New York Power Proceeds Allocation Act (the “Act”). The Act provides for the creation, by the Authority, of the Western New York Economic Development Fund (“Fund”). The Fund consists of the aggregate excess of revenues received by the Authority from the sale of Expansion Power (“EP”) and Replacement Power (“RP”) produced at NYPA’s Niagara Power Project that was sold in the wholesale energy market over what revenues would have been received had such energy been sold on a firm basis to an eligible EP or RP customer under the applicable tariff or contract.

Under the Act, an “eligible applicant” is a private business, including a not-for-profit corporation. “Eligible projects” is defined to mean “economic development projects by eligible applicants that are physically located within the state of New York within a thirty mile radius of the Niagara power project located in Lewiston, New York that will support the growth of business in the state and thereby lead to the creation or maintenance of jobs and tax revenues for the state and local governments.” Eligible projects include, for example, capital investments in buildings, equipment, and associated infrastructure owned by an eligible applicant for fund benefits; transportation projects under state or federally approved plans; the acquisition of land needed for infrastructure; research and development where the results of such research and development will directly benefit New York state; support for tourism and marketing and advertising efforts for western New York state tourism and business; and energy-related projects.

Eligible projects do not include public interest advertising or advocacy; lobbying; the support or opposition of any candidate for public office; the support or opposition to any public issue; legal fees related to litigation of any kind; expenses related to administrative proceedings before state or local agencies; or retail businesses as defined by the board, including without limitation, sports venues, gaming and gambling or entertainment-related establishments, residential properties, or places of overnight accommodation.

Fund Benefits are payable to successful eligible applicants for eligible projects in the form of grants. It is anticipated that Fund Benefits will be disbursed by NYPA as reimbursement for expenses incurred by the Eligible Applicant.

At least 15% percent of Fund Benefits must be dedicated to eligible projects which are “energy-related projects, programs and services,” which is “energy efficiency projects and services, clean energy technology projects and services, and high performance and sustainable building programs and services, and the construction, installation and/or operation of facilities or equipment done in connection with any such projects, programs or services.”

Allocations of Fund Benefits may only be made on the basis of moneys that have been deposited in the Fund. No award may encumber funds that have not been deposited in the Fund.

2. Western New York Power Proceeds Allocation Board

Under the Act, the Allocation Board is charged with soliciting applications for Fund Benefits, reviewing applications, making eligibility determinations, evaluating the merits of applications for Fund Benefits, and making recommendations to NYPA on Fund Benefit awards. The Allocation Board uses the criteria applicable to EP, RP and PP allocations, and for revitalization of industry, provided for in Public Authorities Law § 1005. Additionally, the Board is authorized to consider the extent to which an award of Fund Benefits is consistent with the strategies and priorities of the Regional Economic Development Council having responsibility for the region in which an eligible project is proposed.

At its meeting on March 4, 2013, the Board, in accordance with the Act, adopted by-laws, operating procedures, guidelines related to the application, and a form of application. A copy of the relevant criteria (collectively, “Program Criteria”), adapted from this Board’s “Procedures for

the Review of Applications for Fund Benefits,” is attached as Exhibit “F”. The Board also defined “retail business” to mean “a business that is primarily used in making retail sales of goods or services to customers who personally visit such facilities to obtain goods or services”.

Finally, the Board designated the Western New York Regional Director, Empire State Development Corporation to act on its behalf for administrative matters and to provide staff services (“Staff”). Among other things, Staff was authorized to perform analyses of applications seeking Fund Benefits and to make recommendations to the Board on the applications.

3. Application Process

The Allocations Board established a series of application due dates coupled with a schedule of dates through the end of 2013 on which dates the Board expected to meet to consider applications. In addition, the application process was promoted through a media release and with assistance from state and local entities, including the Western New York and Finger Lakes Regional Economic Development Councils, the Empire State Development Corporation and other local and regional economic development organizations within the State. A webpage was created that is hosted on WWW.NYPA.GOV/WNYPPAB with application instructions, a link to the approved application form and other program details including a contact phone number and email address staffed by the Western New York Empire State Development regional office.

After the Board’s first round of recommendations made at its May 13, 2013 meeting, NYPA made three awards of Fund Benefits.

As of May 7, 2013, the second application due date, the Board received 45 applications, over two rounds, collectively seeking over \$100 million in Fund Benefits.

To facilitate the Board’s second round of application review, Staff analyzed applications and is now making recommendations to the Board on all outstanding applications except those listed on Exhibit “D”, which are being deferred for future consideration, and Exhibit “E”, which have been withdrawn by the applicants. Staff’s recommendations are discussed in the next section.

DISCUSSION AND RECOMMENDATIONS TO THE BOARD

Staff has reviewed the applications received during the second solicitation round, and is making the following recommendations to the Board.

1. Recommendations for Awards of Fund Benefits

Based on a review of the applications and an application of relevant Program Criteria, Staff recommends that the Allocation Board recommend to NYPA Trustees that two applications listed on Exhibit “A-1” and Exhibit “A-2” each receive an award of Fund Benefits in the amount indicated. The applicants have indicated that the proposed projects would create or retain upwards of 345 jobs in Western New York. The total amount to be expended on the project proposed by these applicants is expected to exceed \$20M.

2. Recommendations for No Award

Based on a review of the applications and relevant Program Criteria, Staff recommends that the Allocation Board determine that no recommendation for an award of Fund Benefits will be made to the NYPA Trustees for the applications listed in Exhibit “B”.

3. Ineligible Projects

Economic Development Law (“EDL”) § 189-a(5) defines “eligible projects” and further excludes certain categories of projects from such definition, including “retail businesses” as defined by the WNYPPAB and “residential properties”. As noted above, the Board has defined “retail business” to mean “a business that is primarily used in making retail sales of goods or services to customers who personally visit such facilities to obtain goods or services”.

Based on a review of the applications and the Board’s definition of “retail business,” Staff recommends that the Board find and determine that each of the four applications listed in Exhibit “C” proposes a project that is not an eligible project. As described in Exhibit “C”, the applications submitted by Kaleida Health, Mark Hutchinson, Vazquez Family Service, LLC and Try-It Distributing Company, Inc. each propose a project that constitutes a “retail business”.

4. Recommendation for Future Consideration

The Board is also requested to defer the application listed in Exhibit “D” for consideration at a later time.

5. Other Applications

For the Board’s information, Exhibit “E” lists those applications that have been withdrawn or which Staff has determined are incomplete. No action is required by the WNYPPAB on these applications at this time.

PROJECT STATUS

Under the Act, a recommendation for Fund Benefits by the Allocation Board is a prerequisite to an award of Fund Benefits by NYPA. Upon a showing of good cause, NYPA has discretion to adopt the Allocation Board’s recommendation, or to award Fund Benefits in a different amount or on different terms than recommended by the Board. In addition, the Authority is authorized to include in any contract providing for the implementation of an award (“Award Contract”) any terms and conditions that NYPA deems appropriate.

Given the preliminary stage of the projects identified on Exhibit “A-1” and Exhibit “A-2”, Staff is not in a position to recommend any specific terms and conditions to the Board that might be included in the Board’s recommendation for award. It is anticipated that NYPA staff, in consultation with Board Staff, will negotiate final terms and conditions with successful applicants after the receipt of more detailed information concerning the projects.

RECOMMENDATION

Based on the foregoing discussion and information, Staff recommends that the Allocation Board:

- (1) recommend to the NYPA Board of Trustees that the applicants listed in Exhibit “A-1” and “A-2” each receive an award of Fund Benefits in the amounts indicated;
 - (2) find and determine that none of the applications listed in Exhibit “B” will receive a recommendation for an award of Fund Benefits;
 - (3) find and determine that the applications listed on Exhibit “C” each proposes a project that is not an eligible project; and
 - (4) find and determine that the applications listed in Exhibit “D” be deferred for consideration at a later time.
-

For the reasons stated, Staff recommends the adoption of the above-requested action by adoption of a resolution in the form of the attached draft resolution.

Christina Orsi
Western New York Regional Director,
Empire State Development Corporation

Att.

RESOLUTION

NOW THEREFORE BE IT RESOLVED, That the Western New York Power Proceeds Allocation Board (“Allocation Board”) hereby recommends that the Power Authority of the State of New York (“NYPA”) grant an award of Fund Benefits to each applicant listed in Exhibit “A-1”, and Exhibit “A-2” in the amounts indicated therein, for the reasons set forth in the attached memorandum and the attachments thereto; and be it further

RESOLVED, That the Allocation Board hereby finds and determines that the applications listed in Exhibit “B” are not recommended for an award of Fund Benefits for the reasons set forth in the attached memorandum and the attachments thereto; and be it further

RESOLVED, That the Allocation Board hereby finds and determines that the applications listed in Exhibit “C” propose projects that are not eligible projects for the reasons set forth in the attached memorandum and the attachments thereto, and therefore are not eligible to receive Fund Benefits; and be it further

RESOLVED, That the Allocation Board hereby finds and determines that the applications listed in Exhibit “D” will be deferred for consideration at a later time; and be it further

RESOLVED, That Staff is authorized on behalf of the Allocation Board to transmit the Board’s decision to NYPA, and to do any and all things and take any and all actions to effectuate the Board’s decision and the foregoing resolution.

This applicant has demonstrated the ability to carry out a very progressive energy project that will lead to job creation in North Tonawanda. The project will create 15 new jobs with an average annual salary of \$60,000. This award will allow the company to expand the current capacity of their facility, equipment and staff in order ramp up for this project.

This project is on the cutting edge of clean energy technology as it will revolutionize municipal waste remediation. This company has truly demonstrated that this is a golden opportunity for the company and the Western New York Region.

PROJECT DESCRIPTION			
<p>This is a workforce development project that will focus on helping unemployed residents on the Eastside of Buffalo move into professions in the field of healthcare by putting them through CNA training. This project will include the construction of a 10,000 square foot educational facility located on the East side of the City of Buffalo. The facility will include a classroom setting, a care facility simulator, and an informational technology laboratory, each of which is critical to the successful education of a CNA.</p>

PROJECT DESCRIPTION

After environmental remediation, this site will be developed as a universally accessible waterfront park featuring a canoe/kayak launch at the mouth of the Scajaquada Creek, along the Canal portion of the Niagara River. Providing a critical Blueway Trail link to Buffalo's Olmsted Parks and along the Greenway, this historic War of 1812 site will also provide physical and visual connectivity into and from the water to Buffalo's Tonawanda Street BOA and Upper West Side and Black Rock Neighborhoods.

PROJECT DESCRIPTION

The subject project is the interior restoration of the Darwin D. Martin House, specifically, the restoration of the extensive wood trim and intricate paint finishes designed by Frank Lloyd Wright for all 3 levels of the 15,000 sf home. A range of trim and finish conditions currently exists in the home; all will be mitigated by this project and the house returned to its original state in 1907. This project will likely be broken down into phases, by floor, subject to current funding levels.

Western NY Power Proceeds Allocation Board
Exhibit F – Program Criteria
June 26, 2013

Criteria adapted from the Western NY Power Proceeds Allocation Board’s
“Procedures for the Review of Applications for Fund Benefits”

1. The extent to which an award of Fund Benefits would be consistent with the strategies and priorities of the Regional Economic Development Council (“REDC”) having responsibility for the region in which an Eligible Project is located.¹ The Western New York Regional Economic Development Council which is responsible for Eligible Projects in Erie and Niagara Counties Strategies & Priorities are:
 - Promote “Smart Growth” by investing in areas that infrastructure already exists and achieves certain goals, such as: preserving historic buildings; reviving downtowns; reviving main streets; investing in existing neighborhoods; and investing in former industrial sites. A project consistent with Smart Growth will also focus on: enhancing walkability; enhancing multiple modes of transportation; connecting disadvantaged communities to employment clusters; spurring mixed-use private investment in existing communities and preserving/enhancing natural lands and or resources.
 - Promote workforce development by increasing diversity in the labor force, developing and cultivating that includes workers with advancement potential, underemployed, unemployed and special population; align education and skills training to job market for current and future industry needs.
 - Foster entrepreneurship and new business formation and growth. Designing a plan that brings new technologies and/or products to the marketplace, increases new start ups in strategic industries and facilitates the commercialization of products that can lead to job growth in the Region.
 - Increase the industry profile of agriculture in WNY by: creating better access to markets; creating new products; creating new more efficient processes; creating strong regional brands; creating programs that promote careers in agriculture.
 - Utilize Western New York’s proximity to Canadian and U.S. population centers to advance economic development in WNY. Bi-national projects will: utilize cross-border planning to create transportation and logistical infrastructure; improve

¹ As provided for in EDL § 189-c(4), criteria 2-15 are adapted from the criteria for eligibility for Expansion Power, Replacement Power and Preservation Power under Public Authorities Law § 1005. The specific criteria identified in PAL § 1005(13)(b)(4)-(5) are relevant to power allocations under these programs but do not have any logical application to allocations of Fund Benefits. Therefore, the Board does not expect to use these criteria to evaluate applications for Fund Benefits. Additionally, in accordance with PAL § 1005(13), criteria 13-15 listed herein will only be used in the case of Eligible Projects which are proposed by Applicants as, and determined by the Board to be, “revitalization” projects.

operational relationships; promote the attractiveness of WNY as a hub for global trade.

- Position the WNY region as a global energy hub through new sources of clean energy, energy efficiency and energy efficient transportation.
- Support growth of advanced manufacturing by making research more available to manufacturers to help them innovate.
- Spur growth in the health and life sciences industry through improved commercialization, recruit high profile research talent and reducing the cost burden of healthcare while improving health outcomes.
- Expand the scope of higher education by increasing accessibility to Higher Education for communities that currently have limited access to educational opportunities; better aligning education with the industry needs and creating support structures for start-ups which will assist start-ups with commercialization, business planning, workforce preparation, facilities, etc.
- Grow visitors and visitor spending by raising the profile of WNY as a national and international destination; connect multiple tourist destinations in WNY; improve the profile of the WNY Gateway to the United States.

For more information on the Western New York Regional Economic Development Council please go to <http://regionalcouncils.ny.gov/content/western-new-york>.

2. The extent to which an award of Fund Benefits would be consistent with the strategies and priorities of the Regional Economic Development Council (“REDC”) having responsibility for the region in which an Eligible Project is located.² The Finger Lakes Regional Economic Development Council which is responsible for Eligible Projects in Orleans and Genesee Counties Strategies & Priorities can be found at: <http://regionalcouncils.ny.gov/content/finger-lakes>.
3. The number of jobs that would be created as a result of an award of Fund Benefits.
4. The applicant’s long term commitment to the region as evidenced the current and/or planned capital investment in applicant’s facilities in the region.
5. The ratio of the number of jobs to be created to the amount of Fund Benefits requested.
6. The types of jobs that would be created, as measured by wage and benefit levels, security and stability of employment.
7. The amount of capital investment, including the type and cost of buildings, equipment and facilities, proposed to be constructed, enlarged or installed.
8. The extent to which an award of Fund Benefits would affect the overall productivity or competitiveness of the applicant and its existing employment.

² As provided for in EDL § 189-c(4), criteria 2-15 are adapted from the criteria for eligibility for Expansion Power, Replacement Power and Preservation Power under Public Authorities Law § 1005. The specific criteria identified in PAL § 1005(13)(b)(4)-(5) are relevant to power allocations under these programs but do not have any logical application to allocations of Fund Benefits. Therefore, the Board does not expect to use these criteria to evaluate applications for Fund Benefits. Additionally, in accordance with PAL § 1005(13), criteria 13-15 listed herein will only be used in the case of Eligible Projects which are proposed by Applicants as, and determined by the Board to be, “revitalization” projects.

9. The extent to which an award of Fund Benefits may result in a competitive disadvantage for other business in the State.
 10. The growth potential of the applicant's facilities and the contribution of economic strength to the area in which the applicant's facilities are or would be located.
 11. The extent of the applicant's willingness to satisfy affirmative action goals.
 12. The extent to which an award of Fund Benefits is consistent with state, regional and local economic development strategies and priorities and supported by local units of government in the area in which the business is located.
 13. The impact of an award of Fund Benefits on the operation of any other facilities of the applicant, and on other businesses within the region.
 14. That the business is likely to close, partially close or relocate resulting in the loss of a substantial number of jobs.
 15. That the applicant is an important employer in the community and efforts to revitalize the business are in long-term interests of both employers and the community.
 16. That a reasonable prospect exists that the proposed award of Fund Benefits will enable the applicant to remain competitive and become profitable and preserve jobs for a substantial period of time.
