The minutes of the meeting of October 24, 2008 were unanimously adopted.

## **2. Power for Jobs Extended Benefits**

### **SUMMARY**

The members of the Economic Development Power Allocation Board (“EDPAB”) are requested to approve extended benefits for 68 Power for Jobs (“PFJ”) customers as listed in Exhibit “A.”

### **BACKGROUND**

In July 1997, the New York State Legislature approved a program to provide low-cost power to businesses and not-for-profit corporations that agree to retain or create jobs in New York State. In return for commitments to create or retain jobs, successful applicants received three-year contracts for PFJ electricity.

The PFJ program originally made 400 megawatts (“MW”) of power available and was to be phased in over three years. As a result of the initial success of the program, the Legislature amended the PFJ statute to accelerate the distribution of the power and increase the size of the program to 450 MW. In May 2000, legislation was enacted that authorized additional power to be allocated under the program. Legislation further amended the program in July 2002.

Chapter 59 of the Laws of 2004 extended the benefits for PFJ customers whose contracts expired before the end of the program in 2005. Such customers had to choose to receive an “electricity savings reimbursement” rebate and/or a power contract extension. The Authority was also authorized to voluntarily fund the rebates, if deemed feasible and advisable by the Trustees.

PFJ customers whose contracts expired on or prior to November 30, 2004 were eligible for a rebate to the extent funded by the Authority from the date their contract expired through December 31, 2005. Customers whose contracts expired after November 30, 2004 were eligible for rebate or contract extension, assuming funding by the Authority, from the date their contracts expired through December 31, 2005.

Approved contract extensions entitled customers to receive the power from the Authority pursuant to a sale-for-resale agreement with the customer’s local utility. Separate allocation contracts between customers and the Authority contained job commitments enforceable by the Authority.

In 2005, provisions of the approved State budget extended the period PFJ customers could receive benefits until December 31, 2006. Chapter 645 of the Laws of 2006 included provisions extending program benefits until June 30, 2007. Chapter 89 of the Laws of 2007 included provisions extending program benefits until June 30, 2008. Chapter 59 of the Laws of 2008 included provisions extending the program benefits until June 30, 2009.

At its meeting of October 18, 2005, EDPAB approved criteria under which applicants whose extended benefits EDPAB had reduced for non-compliance with their job commitments could apply to have their PFJ benefits reinstated in whole or in part. EDPAB authorized staff to create a short-form application, notify customers of the process, send customers the application and evaluate reconsideration requests based on the approved criteria.

### **DISCUSSION**

EDPAB is requested to recommend that the Authority Trustees approve electricity savings reimbursement rebates to 68 PFJ customers listed in Exhibit “A,” all of which are meeting their job commitments. Collectively, these organizations have agreed to retain more than 52,000 jobs in New York State in exchange for rebates. The rebate program will be in effect until June 30, 2009, the program’s sunset.

### **RECOMMENDATION**

It is requested that the Economic Development Power Allocation Board recommend that the Power Authority’s Trustees approve the payment of electricity savings reimbursements to the 68 businesses listed in Exhibit “A.”

The following resolution was unanimously adopted by members of the Board present.
