Reference: Deficiency of License Application

Dear Mr. Daly:

The applications for new licenses for the Crescent Hydroelectric Project No. 4678 and Vischer Ferry Hydroelectric Project No. 4679, filed on May 25, 2022, do not conform to the requirements of the Commission's regulations. Pursuant to section 4.41(h) of the Commission's regulations, Exhibit G must include: (1) project boundary data in a geo-referenced electronic format (i.e., ArcView shape files or similar format); (2) electronic boundary data that is positionally accurate to ± 40 feet; and (3) a text file describing the map projection used for the Exhibit G data. Neither application includes this information; therefore, a revised Exhibit G must be filed for each application that contains the above information.

Under section 5.20(a)(2) of the regulations, you have 90 days from the date of this letter to correct the deficiencies in your applications. If the correction of any deficiencies causes any other parts of the applications to be inaccurate, those parts must also be revised and refiled by the due date.

The Commission strongly encourages electronic filing. Please file the requested information using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. For assistance, please contact FERC Online
