**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION.** Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling, before eating, drinking, chewing gum or using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**Personal Protective Equipment (PPE)**

Applicators and other handlers must wear eye protection, such as goggles or face shield, and chemical-resistant gloves (such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride, vitrho). Mixers, loaders, applicators, and other handlers must wear the following: long-sleeve shirt or protective sleeves, long pants, shoes plus socks. Protective clothing must be changed when it shows signs of contamination. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. Do not reuse them.

**USER SAFETY REQUIREMENTS**

Users must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users must remove clothing/ PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users must remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to tidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater rinsate. Do not discharge effluent containing this product to wastewater systems. Do not discharge effluent containing this product to surface water bodies, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to disposal. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal of equipment. Do not store water, or to areas where surface water is present or to tidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater rinsate. Do not discharge effluent containing this product to waterways, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to disposal. Do not discard effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**Pesticide Storage:** Store product away from food or feed. Keep container closed when not in use.

**Pesticide Disposal:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste facility.

**Container Disposal:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Offer for recycling, if available or puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

**ACTIVE INGREDIENTS**

Copper Carbonate* ………………… 1.73%

(CAS #12069-69-1)

Sodium Tetraborate Decahydrate ……… 43.70%

Inert Ingredients: ……………………………. 54.57%

Total: ………………… 100.00%

*Metallic Copper Equivalent: 1%

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**FIRST AID**

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If swallowed:

- Call a poison control center or doctor immediately for treatment advice.
- Have a person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an unconscious person.
- If person is not breathing, call 911 or an unconscious person.
- If person is not breathing, call 911 or an unconscious person.
- If person is not breathing, call 911 or an unconscious person.
- If person is not breathing, call 911 or an unconscious person.

**HOT LINE NUMBER**

In case of emergency, call CHEMTREC toll free at 800-424-9300. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**DESCRIPTION**

MP500-EXT is designed for remedial treatment of in-service poles, posts, and other timber members. It may be applied by brush, trowel or pump. MP500-EXT halts existing wood decay, protects against future decay and wood destroying insects.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

MP500-EXT must not be applied to poles, posts or timber members in aquatic environments.

**EXTERNAL TREATMENT:** Apply by brush or trowel to a thickness of 1/16” on poles or timber. Typical pole application is from 3” above to 18” below groundline and lower where deeper decay is suspected. Application on poles to be restored must extend the length of wrap-around type repair systems. Wrap the treated area with a moisture barrier such as OSMOSHIELD.

Product may be applied in ready-to-use pouch packaging to the structure in the area 3 inches above to 18 inches below the groundline. Silt the pouch along the marked lines being careful not to cut through the outer backing of the pouch and press this slt side tightly against the wood, then staple or nail to the pole, post or timber. Staple or nail in the empty, unfilled, upper band portion of the pouch. Do not puncture the outer backing of the filled pouch. If the outer backing of the pouch is cut or punctured, repair the damage with a water resistant, durable tape.

Use includes the covering of any exposed product above the groundline in areas where children or livestock may come in contact with it. Various products which can be used for this purpose are Osmose’s Pasteur Wrap or some other type of barrier which prevents the product from being easily removed and consumed.

**INTERNAL TREATMENT:** For control of internal decay in poles and other timbers, holes may be drilled in areas of the poles or timber where protection is required. Fill drilled holes, decay pockets, and voids using a grease gun or other pressurized applicator. Plug application holes with secure-fitting dowels. Product may be diluted with water if a less viscous solution is desired.
